

Investment objective

The objective of the fund is to provide long-term growth by investing in a portfolio of other authorised funds, worldwide equities, fixed interest stocks, cash and money market instruments.

The investment manager will take a fundamental and value driven approach to portfolio allocation, dependent on the relevant attractions of the world equity, fixed interest and currency markets. The fund will take an aggressive view of the stock market weightings in the portfolio, when compared to a neutral world market capitalisation.
